

KAJA MOHAIDEEN

Aspiring AI/ML Engineer | Python & Generative AI Developer

Karaikudi, Tamil Nadu, India | +91-6383434481 | kajamohaideen345@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year B.Tech Artificial Intelligence & Data Science student (CGPA 8.00/10) with a Python with Data Analytics internship and hands-on experience in Python development, data structures & algorithms, machine learning, data analysis, and data visualization using Pandas, NumPy, and Matplotlib. Working knowledge of Generative AI, large language models (LLMs), prompt engineering, and AI agent development, with clean, modular, Git-versioned code. Seeking an entry-level AI/ML Engineer, Python Developer, Data Analyst, or Generative AI role to apply strong analytical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Machine Learning & Deep Learning: Scikit-learn, TensorFlow, Keras, PyTorch, Supervised & Unsupervised Learning, Model Evaluation, Feature Engineering, NLP

Generative AI: Generative AI, Large Language Models (LLMs), Prompt Engineering, AI Agents

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing

Tools & Platforms: Jupyter Notebook, Git/GitHub, VS Code, Google Colab, Docker (basic)

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST APIs, Problem Solving

Databases: MySQL

EDUCATION

B.Tech in Artificial Intelligence & Data Science 2027

M.I.E.T Engineering College, Trichy, Tamil Nadu | CGPA: 8.00 / 10

Higher Secondary Education (Class XII), State Board 2023

L.F.R.C Higher Secondary School, Karaikudi, Tamil Nadu | Percentage: 63%

INTERNSHIP / WORK EXPERIENCE

Python with Data Analytics Intern – Accent Techno Soft, Coimbatore Jul 2025 – Aug 2025

- Completed a one-month internship training in **Python with Data Analytics** (23 Jul – 23 Aug 2025), attending all phases of the program regularly and sincerely.
- Used Python with **Pandas** and **NumPy** to clean, preprocess, and analyze datasets and derive insights from the data.
- Created data visualizations with **Matplotlib** and applied core analytics workflows (cleaning, exploration, visualization) that build the foundation for machine learning work.

PROJECTS

Automated File Organization & Management System [[File-organizer-pro](#)] Sep 2026

Python | [pathlib](#) | [shutil](#) | [logging](#) | [Git](#) | [GitHub](#)

- Developed a Python-based automated file organization system that categorizes files into structured folders using configurable file-extension rules.
- Implemented preview mode, duplicate-safe file renaming, error handling, logging, user-defined folder input, and organization summary reporting.
- Modularized the application into separate configuration and organization modules; documented and version-controlled it using Git and GitHub.

CERTIFICATIONS

- Python – Scaler (May 2026)
- Data Structures & Algorithms – Udemy (November 2025)
- Internship Training in Python with Data Analytics – Accent Techno Soft (August 2025)

LANGUAGES

- Tamil, English
